HOW IT WORKS

The RPM-Academy Global Partner Program is structured to provide an affordable, customized, turnkey Lean Six Sigma and Agile training resource that you can leverage for your blended (on-line, in-class) training programs and/or for the generation of new monthly subscription revenue from independent online learners... a new source of passive income.

MANAGING ACTIVE STUDENTS AND KEEPING COSTS LOW!

Managing your students effectively can result in hundreds of students trained over the course of a year for as little as **\$15.00 CAD per active student per month** regardless of the number of courses that they are assigned, access, or complete.

Licensing is based on active licenses. A student with an active license can sign into their account. After completing their assigned courses or program, a student can be **deactivated** and another student can then be activated, thereby keeping your active licensing costs per student as low as possible!

A deactivated student's records remain intact should they need to be reactivated at some time in the future.
